## Jolly > wheelchair stair climber

The Jolly is a tracked wheelchair stair climber, enabling an operative to negotiate the majority of staircases smoothly, whilst a person travels in the comfort of their own wheelchair. Permanent installation is not required as the wheelchair is simply attached to the tracked base.

Its unique design ensures the occupant is kept level during travel, instilling confidence and trust. Compatible with electric chairs, wheelchairs with tilting or movable backrests and pushchairs, the Jolly's lightweight frame can be quickly dismantled into two pieces for easy transportation.

### Benefits

- > Travel in the comfort of your own wheelchair
- > Smooth travel motion on stairs
- > Easy to dismantle and transport
- > Compatible with various wheelchair types
- > Overcomes architectural challenges
- > Light but robust and manoeuvrable
- > Push button control
- > Loading ramps available
