

Tolo > mobility stair climber

Versatile and easy to use, the Tolo is a battery-powered mobility unit, delivering independence and safety. Its unique design enables a trained operative to manage the majority of staircases smoothly and safely, ensuring the correct body posture for the occupant.

Ideal for both private and commercial customers, the Tolo is suitable for domestic use, as well as in office and public buildings, residential care homes and hotels. The simple push-button control makes it an effective evacuation solution in the event of an emergency and a reliable alternative to powered stair lifts.
