

## **Sprinter Pro 300** > powered stair climber

The Sprinter Pro 300 is the compact, mid-weight capacity powered stair climber from the Sprinter Pro family.

The Pro machines are the most powerful stair climbers in Stanley's Sprinter range.

With a carrying capacity of up to 300kg, the Sprinter Pro 300 stair climber trolley enables heavy and awkward loads to be manoeuvred by a single operator using the remote control panel.

The self-levelling technology adapts automatically to the stairway incline, maintaining a horizontal load at all times on the stairs. This protects the materials from damage during transportation and helps prevent manual handling injury.

### **Benefits**

- > Single operator usage cuts the labour required
- > Self-levelling technology to protect user and load
- > Brake safely on the stairs
- > Anti-slip, high strength caterpillar tracks
- > Compact machine is manoeuvrable on tight landings, with 360-degree rotation
- > Range of 1600 steps per charge
- > Easily switch from ground to climb mode
- > Removable control panel operation
- > Reduce the risk of manual handling injury
- > Improve business efficiency
- > Multi-speed function for operator safety
- > Adjustable handle for varying load height
- > Removable battery for in-transit charging
- > Bespoke accessories for different sectors

## Specification

- 300kg maximum capacity
- 63kg overall weight of the machine
- Multi-speed function - 16 -19 steps per min
- 3.1kg battery pack unit weight - 24V
- Max 40 degree tilt
- Conforms to EC materials handling regulations
- IP54 grade protection
- Dimensions - Max: H: 1530 x W: 600 x L: 1030mm. Min: H: 1155mm

## Example Loads

Data servers • Motors • Gas Cylinders • Large White Goods •  
Construction Materials • Precision Instruments • Safes •  
Vending Machines • Photocopiers • Engineering Parts

- ✔ Free demonstrations
- ✔ Certificated training
- ✔ National maintenance coverage
- ✔ Preventative maintenance schedule
- ✔ Competitive finance and hire options
- ✔ 12-month parts warranty
